Topic : Impact of Economics on real life

### Introduction to topic:

Economics helps individuals and businesses to make informed decisions in different fields, including finance, governance, law, administration, and finance among others. Typically, all people in the society are affected by economics in one way or another. It is not only important in education but also in making critical analysis in different situations.

### Session

Prof. Rasananda Panda addressed the students on current economic situation in India. The main topics he focused on were as follows:

- Economics and lifestyle
- Economics and politics
- Price change and its impact on society
- Changes in government regulations and its impact (GST)
- Different sectors of economy and its functioning

### Learning outcomes from students perspective

It can be concluded that the Guest lecture by Prof. Rasananda Panda was very informative and interactive. Students, who usually find economics boring enjoyed the session and were able to gain new perspective into it.
